

GENERAL INFORMATION – Individual Photoshoot

Below are the updated packages for the year 2025. You can also find important details and common questions answered right after this section. Please read carefully, and if you have any doubts, feel free to contact me for more information.

- At the moment, I am working with 3 fixed packages. In addition, I also offer my clients the option of purchasing extra photos in case you like more photos than the package you initially chose. These extras come with even lower prices – so take advantage of it!

IMPORTANT INFORMATION

- Here I will explain a little about how the process of doing a photoshoot with me works. I will also answer some of the most common questions from my clients, such as delivery time, extra photos, and other important points – so you can clearly understand why you should book a photoshoot with me. **Let's go!**

- First of all, I want to make it clear that I truly value QUALITY in my work. I love to present ideas and create exclusive photoshoots that really make sense for you – matching your style and capturing your true essence.

- Taking hundreds of shots does not mean that you will automatically have hundreds of perfect pictures, as many people imagine. In fact, spending hours in front of the camera can sometimes feel exhausting, especially for clients who are doing a photoshoot for the first time. This can directly affect the experience and the final results. That is why I always like to discuss every detail with my clients before we even start shooting. This way, during the photoshoot, we can focus on what really matters – your photoshoot experience.

I also make sure the atmosphere is fun and relaxed. Laughter, jokes, music, and good vibes are part of my process. This not only makes the session more enjoyable but also helps you feel more confident, comfortable, and natural. Remember: my goal is to create a unique experience for you. A comfortable and happy environment will always reflect positively in the results.

- Another big difference in my work is the post-production (final editing). I carefully edit each selected photo individually, working with exposure correction (lighting), color adjustments, and other refinements. If needed, I can also make specific adjustments requested by the client. I use professional software and advanced techniques to ensure a polished, beautiful, and professional result.

- Please note that the package prices do not include extra costs such as transportation if the chosen photoshoot location is far from where I currently live (Gold Coast – QLD). In this case, an additional travel fee will be added to the package.

Other expenses such as makeup, hair styling, or location rental are also not included in the package price. These costs must be paid separately and directly to the professional you choose to hire.

IMPORTANT: I highly recommend hiring at least a makeup artist for your photoshoot. Makeup is directly connected to the final quality of the photos. Just like good lighting is essential, makeup can enhance facial expressions (especially the eyes) and balance skin tones – giving your photos a much more professional and polished look.
